

SENSORS
MODEL 4550
Solar Radiation Shield

General Description

The Model 4550 Solar Radiation Shield provides maximum air temperature and relative humidity sensor protection from the effects of overheating due to solar radiation. It is used with the Model 2048 Relative Humidity and Temperature sensors.

Specifications

Overall dimensions	10 in. high x 1.25 in. dia
Plates	Four, top plate 7.25 in. dia, others 3.5 in. dia
Sensor clearance	9/16 in. dia. x 4.25 in. long
Sensor mounting	Set screw
Mounting arm	7 in.
Weight	1 lb.
Shipping weight	1.5 lbs.
Mounting	"U" clamp for up to 1 in. pipe
